

4-24-302. Gender friendly conditions in existing facilities.

Statute text

(a) Each municipal or county fire department, and each volunteer fire department or company, are urged to develop plans that, to the greatest extent possible, will create gender friendly conditions in existing facilities.

(b) The purpose of the plans is to identify which stations could be upgraded to accomplish a gender-friendly facility and identify which stations cannot be made gender-friendly due to space constraints, historical significance of the station, or other documented reasons why this could not be accomplished.

(c) The plans, once developed, shall be made available upon request by the commission on firefighting personnel standards and education and from interested persons in the community.
