

68-102-203. Construction of Facility

Statute text

The commissioner, with the support of the department of finance and administration, is to locate a suitable site and to construct a state-of-the-art fire and code enforcement training facility, centrally located in the state, with dormitories, cafeteria facilities, classrooms, labs, office space and other such accommodations as are necessary, and may consider utilizing regional hazardous materials and aircrash training facilities. The cost of this new fire and codes enforcement training facility shall be paid from bonds issued by the state. Annual operating costs of the facility shall be paid from the fire prevention fund.

History

[Acts 1996, ch 937, § 4.]
